Online consultations

You can access advice and care without visiting the practice. Fill in the form in the link below and the team will get back to you within 48 hours with an appropriate appointment or a response to your query.

[Click here for eConsult](#)

Repeat medication

You can order repeat medication at your pharmacy, via the NHS App or on the form below.

[Click here for repeat medication](#) .

Contacting reception

You can contact your reception team by visiting the practice, via the website, or calling our Access Hub. There is also a Contact Us form on the website (not for appointments).

[Click here for reception.](#)

General information

- Our sites are wheelchair/pram/buggy accessible.
- We have closed hearing loops in reception.
- We have access to translators including BSL.
- We strive to make our patient information clear and easy to understand.

We recommend all of our patients who have a smartphone to download the [NHS app](#) or [Patient Access](#). You can manage your appointments, request repeat medication, view your vaccination status, and get information and advice on a range of health issues. Patients without a smartphone or internet access can still get information from our practice teams.

Your registered practice is the **Decima Street Surgery**, but you may be offered appointments at any Nexus Health Group site. You can find information about all of our GP practices by [clicking here](#)

WELCOME TO NEXUS HEALTH GROUP

Your care directory

Making an appointment	<ul style="list-style-type: none"> You can complete an eConsult which allows you to tell us more about your problem. We will respond within 48 hours with an appointment or response to your query. You can telephone the Access Hub on 0203 302 3007. You can book some appointments (for example smear tests) via the NHS App.
Getting repeat medication	<ul style="list-style-type: none"> If you are looking for a repeat medication, you can ask your local pharmacy to register you for the Electronic Prescribing Service. This means your prescription will be delivered directly to the pharmacy, so you do not need to come into the surgery or make an appointment. You can request medication via this contact form on the website. You can request medication via the NHS app, or by signing up to Patient Access You can drop a hand written request off to one of the collection boxes on site.
Getting a vaccination (you or your child)	<ul style="list-style-type: none"> You can make an appointment with the nursing team by either booking online via the NHS app, doing an eConsult, or telephoning your registered practice. Please note we do not currently offer travel vaccinations. These can be accessed via your local travel clinic, or pharmacy.

Join the Patient Participation Group	<ul style="list-style-type: none"> You can fill in this form on the website You can visit your local practice as ask to join.
View your medical record and test results	<ul style="list-style-type: none"> You can access this information via NHS app and Patient Access. Contact reception for help registering with this service.
Fees for services	<ul style="list-style-type: none"> Your NHS treatment is free. There are charges for some services that which are not covered by the NHS for example medical or insurance reports, requests for letters and private sick certificates.
Feedback and complaints	<p>We value your feedback</p> <ul style="list-style-type: none"> Find information on feedback and complaints here You can speak to any member of the practice staff in person You can email the Site Manager at your registered practice.

Our mixed delivery model enables us to provide a flexible service that can adapt to meet the needs of our patients and our community.

OUR HEALTHCARE PROVIDERS

As well as a multidisciplinary clinical team, we also have HR, IT and Finance specialists. If you are interested in working for Nexus Health Group, please see our [Work for Us](#) page.

General Practitioners (GPs)	Our GP Partners are supported by a team of salaried General Practitioners. They lead our clinical and non-clinical multidisciplinary teams to delivery holistic care to our patients. Our GPs see patients face to face, but also offer telephone consultations and eConsult if that is deemed more appropriate.
GP registrars	Fully qualified medical doctors who are completing their specialist training in General Practice. They work under the supervision of their allocated trainer.
Physicians Associates (PAs)	Physician associates are medically trained, generalist healthcare professionals, who work alongside doctors and provide medical care as an integral part of the multidisciplinary team. Physician associates are dependent practitioners working with a dedicated medical supervisor, but are able to work autonomously with appropriate support.
Paramedics	Our team of Paramedics work across all Nexus sites and are highly trained in dealing with acute medical issues. They usually perform acute home visits for our housebound patients.
Nurses	<p>We have a full nursing team across all our sites who have all done further training to become competent in skills needed for General Practice. Practice nurses can carry out cervical smears, immunisations, contraception reviews, wound care and chronic disease management such as asthma, COPD and Diabetes.</p> <p>Many Practice nurse appointments are available to book online and they also have telephone call appointments that can be booked for queries on nursing matters such as immunisations.</p> <p>Health care assistants work with the nursing team and are trained in adult immunisations, phlebotomy, wound care, ear syringing, NHS health checks, 24 hour BP monitoring and some annual reviews.</p>
Osteopaths	Our osteopath specialises in neck, back and joint problems and can devise treatment plans to support a recovery from sport related injuries
Pharmacists	Pharmacists are responsible for the safe prescribing of complex and high risk medicines. They respond to central medicine alerts and conduct prescribing safety audits and adjust medication charts post hospital discharges
Physiotherapists	Physiotherapists are available at a number of our sites and you can book an appointment via reception to see them.
Mental Health Practitioners	Mental Health Practitioners work with our clinical team providing specialised mental health support. Your clinical team can arrange an appointment for you.
GP assistant (admin)	General Practice Assistants are an administrative function (non-clinical) responsible for sorting and signposting clinical post, and extracting important information from letters for coding;
Care Coordinators (admin)	Care coordinators help navigating care for patients with more complex health and care needs and bringing multidisciplinary teams effectively together to support these patients.

Our Primary Care Network

PCNs build on current primary care services and enable greater provision of proactive, personalised, coordinated and more integrated health and social care. Nexus Health Group is part of the North Southwark Primary Care Network [QHS](#). [Read the NHS England PCN FAQs](#).

About Nexus Health Group

Nexus Health Group was founded in 2016 with the coming together of a number of long established, like-minded GP practices. We are the third largest provider of NHS Primary Care Services in England, serving a diverse list of approximately 78,000 patients from nine GP practices all based in South East London.

We are a well-recognised training organisation for GPs, nurses and allied health professionals.

Around 200 employees make up our multidisciplinary teams of GPs, Advanced Nurse Practitioners (ANPs), Paramedics, Physicians Associates, Nurses, Pharmacists, Health Care Assistants (HCAs) and local administration teams. We are focused on the development of our workforce and our services.

In addition to our clinical and administrative practice teams, we also have centralised back office functions providing finance, HR, administration, and data/IT support. Our organisation is led by our GP Partners and our Senior Management Team.

Our GP Partners.

Our GP Partners own and work within the organisation. Our GP Partners are:

- Dr Kenny Chan
- Dr Jane Doherty
- Dr Anna Kedian
- Dr Stefan Lipinski
- Dr Neal Murphy
- Dr Olufemi Onosuga
- Dr Robin Rastogi
- Dr Ben Sangowawa
- Dr Sam Soo

Our Management team.

Our Senior Management Team works alongside the GP Partners to deliver services across the organisation:

- Steven Hunt: Director of Services and Operations
- Claire Lannie: Nurse Manager
- Kasia Sarga: Senior Operations Manager
- Mus Chowdhury: Finance Manager
- Sabrina Sithanen: Human Resources Manager
- Ellen Kitching: Business and Communications Manager
