Appointments and admin support

If you need an appointment, or have an administrative query you will need to complete our [online form](#) between 7am and 4pm.

Our team will review your request and get back to you with an appointment or information.

If you cannot fill in the form online, telephone us or visit your GP practice and the team will complete the form for you.

Repeat medication

You can order repeat medication at your pharmacy, via the NHS App or on the form below.

[Click here for repeat medication](#)

All Nexus Health Group practices:

- Are wheelchair/pram/buggy accessible.
- Have access to translators including BSL.
- Have closed hearing loops in reception.
- Strive to make our patient information clear and easy to understand.

We recommend all of our patients who have a smartphone to download the [NHS app](#). You can manage your appointments, request repeat medication, view your vaccination status, and get information and advice on a range of health issues. Patients without a smartphone or internet access can still get information from our practice teams.

Your registered practice is the **Aylesbury Medical Centre**, but you may be offered appointments at any Nexus Health Group site. You can find information about all of our GP practices by [clicking here](#)

Our mixed delivery model enables us to provide a flexible service that can adapt to meet the needs of our patients and our community.

Our multidisciplinary team

As well as a multidisciplinary clinical team, we also have HR, IT and Finance specialists.

General Practitioners (GPs)	Our GP Partners are supported by a team of salaried General Practitioners. They lead our clinical and non-clinical multidisciplinary teams to delivery holistic care to our patients. Our GPs see patients face to face, but also offer telephone consultations and eConsult if that is deemed more appropriate.
GP registrars	Fully qualified medical doctors who are completing their specialist training in General Practice. They work under the supervision of their allocated trainer.
Physicians Associates (PAs)	Physician associates are medically trained, generalist healthcare professionals, who work alongside doctors and provide medical care as an integral part of the multidisciplinary team. Physician associates are dependent practitioners working with a dedicated medical supervisor, but are able to work autonomously with appropriate support.
Paramedics	Our team of Paramedics work across all Nexus sites and are highly trained in dealing with acute medical issues. They usually perform acute home visits for our housebound patients.
Nurses	<p>We have a full nursing team across all our sites who have all done further training to become competent in skills needed for General Practice. Practice nurses can carry out cervical smears, immunisations, contraception reviews, wound care and chronic disease management such as asthma, COPD and Diabetes.</p> <p>Many Practice nurse appointments are available to book online and they also have telephone call appointments that can be booked for queries on nursing matters such as immunisations.</p> <p>Health care assistants work with the nursing team and are trained in adult immunisations, phlebotomy, wound care, ear syringing, NHS health checks, 24 hour BP monitoring and some annual reviews.</p>
Pharmacists	Pharmacists are responsible for the safe prescribing of complex and high risk medicines. They respond to central medicine alerts and conduct prescribing safety audits and adjust medication charts post hospital discharges
Physiotherapists	Physiotherapists are available at a number of our sites and you can book an appointment via reception to see them.
Mental Health Practitioners	Mental Health Practitioners work with our clinical team providing specialised mental health support. Your clinical team can arrange an appointment for you.
GP assistant (admin)	General Practice Assistants are an administrative function (non-clinical) responsible for sorting and signposting clinical post, and extracting important information from letters for coding;
Care Coordinators (admin)	Care coordinators help navigating care for patients with more complex health and care needs and bringing multidisciplinary teams effectively together to support these patients.

Our Primary Care Network

PCNs build on current primary care services and enable greater provision of proactive, personalised, coordinated and more integrated health and social care. Nexus Health Group is part of the North Southwark Primary Care Network [QHS](#). [Read the NHS England PCN FAQs](#).

About Nexus Health Group

Nexus Health Group was founded in 2016 with the coming together of a number of long established, like-minded local GP practices. We are the third largest provider of NHS Primary Care Services in England, serving a diverse list of approximately 78,000 patients from nine GP practices all based in South East London.

We are a well-recognised training organisation for GPs, nurses and allied health professionals.

Around 200 employees make up our multidisciplinary teams of GPs, Advanced Nurse Practitioners (ANPs), Paramedics, Physicians Associates, Nurses, Pharmacists, Health Care Assistants (HCAs) and local administration teams. We are focused on the development of our workforce and our services.

In addition to our clinical and administrative practice teams, we also have centralised back office functions providing finance, HR, administration, and data/IT support. Our organisation is led by our GP Partners and our Senior Management Team.

Our GP Partners.

Our GP Partners own and work within the organisation. Our GP Partners are:

- Dr Kenny Chan
- Dr Jane Doherty
- Dr Anna Kedian
- Dr Stefan Lipinski
- Dr Neal Murphy
- Dr Olufemi Osonuga
- Dr Robin Rastogi
- Dr Ben Sangowawa
- Dr Sam Soo
- Dr Chris Damant
- Dr Mo El Labib
- Dr Grant Su

Our Management team.

Our Senior Management Team works alongside the GP Partners to deliver services across the organisation:

- Steven Hunt: Director of Services and Operations
- Claire Lannie: Nurse Manager
- Kasia Sarga: Senior Operations Manager
- Mus Chowdhury: Finance Manager
- Sabrina Sithanen: Human Resources Manager
- Ellen Kitching: Business and Communications Manager
